

Dispersive and Related Partial Differential Equations

May 3 (Sun) - May 8 (Fri), 2026

Hidden Cliff Hotel & Nature, Jeju Island, Republic of Korea

An international meeting for focused exchange on recent developments, central ideas, and key techniques in dispersive and related PDEs. The program combines intensive lecture series (mini-courses) with research talks to foster active discussion, new connections, and future collaborations.

Speakers

Intensive lectures

- **Ioan Bejenaru** (University of California, San Diego, USA)
- **Claudio Muñoz** (Universidad de Chile, Chile)
- **Kenji Nakanishi** (Kyoto University, Japan)

Organizers

Yongguen Cho (Jeonbuk National University)
Chulkwang Kwak (Ewha Womans University)
Changhun Yang (Chungbuk National University)

Research talks

- **Miguel Alejo** (Universidad de Córdoba, Spain)
- **Timothy Candy** (University of Otago, New Zealand)
- **Younghun Hong** (Chung-Ang University, South Korea)
- **In-Jee Jeong** (KIAS, South Korea)
- **Kihyun Kim** (Seoul National University, South Korea)
- **Soonsik Kwon** (KAIST, South Korea)
- **Masaya Maeda** (Chiba University, Japan)
- **Christopher Maulén** (Universidad de Concepción, Chile)
- **Satoshi Masaki** (Hokkaido University, Japan)
- **Tetsu Mizumachi** (Hiroshima University, Japan)
- **José Manuel Palacios** (EPFL, Switzerland)
